

High Definition Sports Camera with Wide Angle Lens, Water-proof Casing and Micro SD Card Recording (Optional) (Model: SPORT-I)

The Sport-I is a small digital sports video recorder that produces high definition images and is designed to be used for a host of sporting applications.

The SPORT-I is equipped with a wide angle lens of 120° that allows the user to their environment without the need to adjust continuously.

The recordings are made on to Micro SD cards and will records both high definition video and snapshot images with just one simple click. The recorded data can then be played back easily by simply connecting the unit (via USB) or the Micro SD directly to a compatible Windows PC.

Additionally a range of brackets is included that allow the SPORT-I to be used safely. This includes a headband, a bracket for placing it on bicycles and a waterproof case for depths up to 20m underwater. The unit comes with a rechargeable battery for up to 2 hours use, whether recording videos or taking image snapshots.
