

Wireless Indoor IP CCTV Camera with 5m IR Night Vision, Wide Angle Lens and Audio (Model: SWC100C)

The Smart Witness wireless SWC100C is a versatile camera designed for home or business use. The camera offers good quality images day or night and features 5 metres IR night vision, a microphone for audio and a wide angle lens.

The camera uses the latest 2.4 GHz Digital Transmission technology and up to 3 additional cameras can be used with the SWC100S or SWC101S systems, allowing you to view a total of 4 areas. The camera uses Digital Wireless Transmission for interference free transmission. It will work in perfect harmony with WiFi, Cordless Phones and similar equipment. It does not suffer from the problems associated with older analogue based wireless cameras.

Additionally, the camera is equipped with a 4.9mm (60°) lens and IR LEDs for up to 5m Night Vision in complete darkness. The camera can be located up to 200 metres away (line of sight) from the receiver, this may be reduced to 50 metres through walls, ceilings and obstacles
