Features

The Professional HD1080P 4 Camera Hybrid XHR1080D8 DVR offers the very latest in digital recording over standard cabling. The unit can record camera images from either AHD 1080P or 720P cameras or from conventional analogue cameras, automatically sensing which format they are. The unit can record all 4 Channels simultaneously at real time (25FPS) Full High Definition (1080P).

The XHR1080D4 provides a full HD 1080P monitor output via VGA or HDMI and can be controlled from the front panel touch sensitive controls or by supplied remote control or USB mouse. The DVR uses P2P technology for quick, seamless Network connectivity and is supplied with a dedicated Smartphone/Tablet App that can also receive Push Video alerts with attached video clips showing alarms detected by Video Motion detection. It has a simple back-up procedure via USB or Network. It also comes with a FOC CMS for multi-site remote monitoring.
