

# High Resolution Covert Snake Camera

(Model: XVCSC)

The smallest Covert Camera in the world, measuring just 6mm in diameter. The XVCSC Snake camera is designed to be hidden just about anywhere.

A 7mm hole is all the camera needs to provide great colour images as it is small enough to see under doors, through holes in a wall, and even through a keyhole.

It is designed for Indoor use only as supplied and features a good quality 3.6mm Wide Angle lens for a 78° viewing angle.
