

Defaulting to Factory Setting

Please follow the steps to reset an Xvision PC based DVR Card to its factory settings. This can be done if you have just installed your PC DVR Card OR you wish to clear any settings you may have changed which have caused undesired results.

Step 1:

Quit the PC DVR Software and go to the C:\ Drive

Step 2:

Open the folder called PCDVR or DVSD4, then go to TOOLS.

Step 3:

Double click the file CAPTURE CLEAR then click OK.

A message will appear to confirm 'Capture Clear Success'. Click OK.

Step 5:

Restart the PC DVR Software.

Select the type of PC DVR Card you have (ie 4 Channel, 8 Channel etc) and it will be reset to its default factory settings.
