## **1. Introduction**

2 This product is a high speed device, which connects via USB to a Windows PC/Laptop and turns it into a powerful 4 camera CCTV recorder with remote viewing, including all the features of an advanced CCTV DVR system.

## **2. Installation Notes**

1. For Software use, please refer to the electronic manual on the CD-Rom supplied.
2. The XUSB4DVR is equipped with precision components. Take care when moving or installing this product.
3. Make sure that your PC has a USB 2.0 port (this product will not operate on USB 1.0 ports)
4. If you need to remove the XUSB4DVR, follow these steps:  
Right click the taskbar > stop device > remove the XUSB4DVR.

- Using the Xvision XUSB4DVR with other USB devices simultaneously may cause a conflict and the computer may not recognise the XUSB4DVR. Do not use more than one XUSB4DVR or use with any other Video capture devices.
- For technical support, please contact your local distributor.
