Head Office: London, U.K.
Email: info@x-vision.co.uk
Web: www.x-vision.co.uk

Model: **XV300E**
10m IR with
3.6mm Lens

Before you begin

- Please unpack the box carefully and identify that all the parts are present.

The camera is suitable for indoor or outdoor use. Please bear in mind the following points when choosing a mounting position.

- The camera must be positioned so that it will not point directly into the sun (sunrise and sunset) or any bright light, as this may cause damage to the camera.
- Avoid viewing areas where half the area is in bright sunlight and the other half is dark, such as in the shadow of a building. All types of cameras have difficulty in 'seeing' with such a large lux level variation.
- Do not open the camera housing. This will void the warranty and break the warranty seal inside the camera.
- Do not cut the camera cables, this will void the warranty.
- Make sure you use only the recommended power supply. Damage caused to the camera by incorrect voltage or wiring is not covered by the warranty.

Model:
XV300E
Colour Digital CCD Day/Night
Camera with 10 metre IR

Mounting Options

Package Contents

XV300E Camera

Bracket

Wiring

1. Connect power to the power jack.
2. Connect video feed to the BNC type connector.
3. Test that the camera is functioning fully before finalising the position of the camera.
